

We are pleased to announce that Eddie Murphy, President of SpaceGuard Products, has been [elected to the MHI Roundtable Advisory Committee](#) for a 4-year term.

[MHI](#) is an international trade association that has represented the Material Handling Industry since 1945. SpaceGuard Products became a member of MHI in 1997 and during that time has participated yearly in either the Promat and MODEX shows. We are, also, a member of the MHI Industry Group, ProGMA (Protective Guarding) Industry Group.

Members of [ProGMA](#) are the Industry's leading suppliers of fixed protective guarding products designed to protect personnel, equipment, and inventory in industrial facilities.

SpaceGuard Products is a [Charter Member of ProGMA](#) and Eddie served as the first Chairman during its inception. We continue to work in leadership roles within the Industry group—Ray Niemeyer, Director of Business Development with SGP, is the current active Vice-Chairman.

SpaceGuard Products Leadership believes in participating in organizations, such as MHI, which promote awareness and education on issues that affect our dealers, and who help drive changes to improve industry standards.

So, please help us in congratulating Eddie on his election to the MHI Roundtable Advisory Committee. We look forward to what the next 4-years will hold!
