

CONTRACT POWDER COATING

NEED HELP POWDER COATING? WE'VE GOT YOU COVERED!

SpaceGuard's new, state-of-the-art powder coating line is now available to customers in the fabricated metal products sector!

Our powder line includes a three-stage wash system, an automated booth in a controlled environmental room, and over 120 linear feet of conveyor travel inside our convection oven. The optimally designed line has minimal turns and elevation changes to ensure a quality finish in the shortest processing time possible. The SpaceGuard team will focus on your product to ensure that all thickness and curing requirements are within specification.

OUR CAPABILITIES:

- *We can accommodate metal substrates with a silhouette of 5' W x 2' H x 18' L*
- *Utilizing high-quality Sherwin Williams paint, we can match any RAL color*
- *Batch powder coating is an option for small volumes, large sizes (up to 24' L), odd configurations and more*
